

## memorandum

DATE: 27 June, 1990

REPLY TO  
ATTN OF: DT-S

SUBJECT: SUN STREAK Report - 9038 (u)

TO: BRANCH CHIEF, DT-S

1. (S/STD/NF) On 27 June, 1990, three Remote Viewers (018, 025 and 052) conducted three sessions (018 conducted a solo CRV session, 025 conducted a solo WRV session and 052 conducted a monitored CRV session) to answer requirements against the suspected narcotics smuggling vessel [redacted]

SG1  
A

Customer requested the following EEI:

a. Is the [redacted] presently carrying contraband in the form of illegal drugs?

b. If so,

- 1) Where are the drugs located aboard ship?
- 2) Where will the drugs be offloaded/transferred?
- 3) When will the drugs be offloaded/transferred?
- 4) List any other salient data which would assist in the search for the contraband.

SG1A

2. (S/STD/NF) 018 reported that the [redacted] was carrying drugs on the trip in question, but that they have already been offloaded in Kingston, Jamaica. The drugs were located midships in 55 gal. metal drums which have false bottoms. An unidentified liquid is in the top of the drums and the drugs are located beneath the metal false bottoms.

SG1  
A

3. (S/STD/NF) 025 reported that there was presently no contraband aboard the vessel.

4. (S/STD/NF) 052 reported contraband which will be offloaded/transferred in Kingston, Jamaica on 28 JUN 90, at approximately 1200 hrs. The drugs are located in the middle of the ship vertically, near the rear and on the right side of the ship. The drugs are in the vicinity of something with a sweet taste, like, for example, orange juice. 052 also perceived that there is something important about a lifeboat, or something round which has a tarp pulled over it.

5. (S/STD/NF) PROJECT OFFICER'S COMMENTS: Project Officer acted as monitor for 052. 052 and 018 have very close correlation on most EEI. 025's results of no drugs presently on board is not necessarily in contradiction with 018's findings of drugs already having been offloaded.
